1. Was it easy to type the responses?
 - a. yeah
2. Do you think this interaction would have been shorter if you could select suggested responses?
 - a. yes

Post task questionnaire for movie service conversation with suggested responses:

1. Was it easy to select the suggested responses?
 - a. yes
2. Do you think this interaction would have taken longer if you had to type out your responses?
 - a. Yes definitely

Post questionnaire:

- Would you like to see any additional features that are not currently implemented?
 - Everything seemed good so far
 - Which of these is the most important to you?
- Was it easy to figure out how to use the system from the user interface?
 - Yes,
 - If yes, what elements in the interface helped?
 - Button followed UI standards and norms you see in other applications, the dropdown for suggested responses was clear and design was clean
 - If no, what do you think could be added or changed?
- On a scale of 1 to 5 (1 being unsatisfied and 5 being extremely satisfied) what is your level of satisfaction with our system's current functionality?
 - 5
- On a scale of 1 to 5 (1 being very difficult and 5 being very easy) how easy was it to use the application?
 - 5

Seems like a cool system, seemed to work smoothly and didn't have a point where I didn't know what I was supposed to do next.
